

YOU CAN HELP

The Curing Childhood Cancer tag is a grassroots opportunity to join the fight against cancer in our state. The tag has already generated more than \$2 million to help fund research at The Alabama Center for Childhood Cancer and Blood Disorders at Children's of Alabama. Of the \$50 purchase price, \$41.25 directly benefits Alabama children and young adults who are fighting cancer. Childhood Cancer tags are available at all Alabama Department of Motor Vehicle locations.

Committed to a Cure

More than **150**

children are diagnosed with cancer each year in Alabama.

90%

of children diagnosed with cancer in Alabama are treated at the Alabama Center.

Over **500**

children undergo cancer treatments each year in Alabama.

80%

of children diagnosed with cancer will be cured of their illness, compared to less than 50% just two decades ago.

There are now about **1000**

adult survivors of childhood cancer in Alabama.

300

dedicated staff members at the Alabama Center work each day to find cures and to meet the unique needs of childhood cancer survivors.

"HELPING TO CURE CHILDHOOD CANCER"

Fishin' 4 A Cure's (F4AC) primary mission is to help cure childhood cancer. F4AC also supports several patient-related programs that provide pediatric cancer patients and their families opportunities to participate in outdoor activities such as fishing and boating.

F4AC was started by four members of the Alabama B.A.S.S. Nation in 2008. Through the membership of the Alabama B.A.S.S. Nation, corporate sponsorship and individual supporters, F4AC has raised more than \$200,000 for pediatric cancer research at The Alabama Center for Childhood Cancer and Blood Disorders at Children's of Alabama.

The Alabama Center for Childhood Cancer and Blood Disorders at Children's is much more than a place. It is an extraordinary partnership of local, national and international centers of excellence that provides care and treatment for 90 percent of the pediatric hematology-oncology patients in the state. Each year, about 150 Alabama children are diagnosed with cancer, leukemia, lymphoma, brain and spinal cord tumors, solid tumors of muscle and bone, kidney and liver tumors, and rare childhood cancers.

F4AC offers many opportunities for corporations and individuals to get involved in the fight against childhood cancer.

Fishin' 4 A Cure Programs include:

F4AC Hooked on Smiles Program

This program is a volunteer network of fishermen who take pediatric cancer patients and members of their families on guided fishing trips throughout the state of Alabama.

F4AC Day at the Lake

This program provides opportunities for pediatric cancer patients and their families to enjoy a day fishing at a stocked lake along with other activities that will make these events an unforgettable experience for all who attend.

The Alabama B.A.S.S. Nation / F4AC Fundraising Competition

The ABN has over 1,700 members located throughout the state who compete in fundraising competitions.
